

Children's Classic Ogden

June 2023

Welcome to Summer at Children's Classic! We have a lot of fun activities planned for summer. Our School Age and Pre-kindergarten have their summer camp activities planned for each week. Please check out your Field Trip list for each weeks fieldtrips.

For the month of June the children will be learning and exploring camps of different kinds. They will be spending a couple of weeks learning about space and science, then outdoor camping, sleep away camps and Celebrating our great United States of America. We are so Excited for the fun activities planned for June.

We want to welcome all our new friends as well as all those returning for the summer. We hope you have a super fun summer with us here at Children's Classic. We are definitely ready for some summer fun!

We want to wish all our dads, grandpa's, and uncles a very Happy Father's Day this year! We hope you have a day filled with love and family fun!

Children's Classic will be closed Monday, July 3 and Tuesday, July 4 for Independence Day. We will also be closed Monday, July 24 for pioneer Day. We hope you have a fun and safe holiday weekend.

Water days will begin June 5. Look below to see the day and time for your child's class

The time will be 10:00-11:00a.m, on the day listed below.

Monday— Toddler A and Toddler B Class

Tuesday— Twos (Tiffany, Sidney, Sierra, & Maria)

Wednesday— Ashley N.—frog class, Ashley K.—zebra class, & Shawane—tiger class

Thursday— Jennifer/Tina—Cheetah Class, Seeta/ Elif—Elephant class, & Sam—Giraffe class.

Friday — Kindergarten and School Age classrooms

Sunscreen for your child

If you would like to bring sunscreen for your child please bring only spray sunscreen and please make sure it is labeled with your child's first and last name.

**CLOSING
EARLY**

Starting this month We will be closing early on the Second Tuesday of each month for professional development. The closing time will be 5:00 p.m. That will be on Tuesday, June 13 this month. Thank You so Much for

Late fees will apply after 5:00 p.m.

**HAPPY
anniversary**

We love our staff here at Children's Classic. We love the dedication they have throughout their years of working here. This month we have three anniversaries.

Maria Lopez— June 7—2 Years

Sam Milne— June 7—1 Year

Justina Longman— June 20—40 Years

Thank you for all your years of teaching and loving so many children throughout the years.

Parent and Staff Appreciation Night

We will be having a Parent and Staff appreciation night at Dinosaur Park on June

28 5:30-7:30. This will be a fun night for us to enjoy the Dinosaur Park. Come join us and play at the park! We will pay the entrance for immediate family living in the home. Refreshments will be served! We look forward to a fun night!

Nutrition Corner

This month we have some great ideas about ways to get outside and have some fun! Being outside is a great way to have fun with your kids and get some exercise!

let's go outside & play!

• Wash and Clean -

Make buckets of soapy water to wash our car and toys.
Let me rinse with the water hose.

• Sweep and Rake -

I can sweep the sidewalk with a child size broom, or rake leaves with a small rake.

Flip Flops

To Wear flip flops or not, that is the question?

We strongly urge your children to wear appropriate shoes to daycare. Flip flops and playing don't mix well. We have had toes run over, toe nails pulled off and skinned feet. Plus, Have you tried running in flip flops? We encourage you to have your child wear sandals with backs on them or tennis shoes. Consider a shoe that covers the toes and stays securely on their feet.

Teacher of the month

Miss Tiffany Hall

Miss Tiffany was chosen because of her love and dedication to the children in her care. And because she is incredibly kind to everyone in our school. She has such a huge Heart and will do anything for anyone. She is always going the extra mile to notice everyone and let them know how much they are appreciated. She is incredible and we are so glad she is part of our School Family!

STEM Projects FOR June

WEEK 1 The sun is actually a star. The sun may be a star, but it is a powerful one. What would happen if we placed a dark paper outside with some objects placed on top and left it outside all day? Would the powerful sun do anything?

WEEK 2 The sun faded our paper and made it lighter last week. Could we protect the paper just like we protect ourselves from the sun? We will talk about the importance of wearing sunscreen and then put some sunscreen on paper. We will then place the paper in the sun to see if it will protect our paper.

WEEK 3 Ice in our drinks melt faster when we are outside. Is there a difference between ice in something dark and ice in something light? We will experiment to see.

WEEK 4 Because we learned last week that ice melts faster on a dark surface. What about if we create shade for our ice? Shade keeps us cooler in the summer. Will our ice melt slower in shade or in the sun? .
