

# STEM PROJECTS FOR JANUARY

## WEEK 1

Can we build an igloo? The children will talk about igloos and then try to create one out of cotton balls, cups and tape.

## WEEK 2

How tall can we make our snowman? The children will predict how high and then build their snowman using marshmallows.

## WEEK 3

Macy broke her sled. The children will make a new sled for her and see if their homemade sled can slide down a ramp.

## WEEK 4

The children will experiment to see which liquid will melt a marshmallow the fastest?
